one village servant in each of the affected Villages in the Chitaldrug District. Under 177 (6) the Concession allowable under which Can be shown only after the declaration of famine, Cash payment to the inferior Village Servants shd. be of such sum as will bring up their actual emoluments from land and perquisites to the amt of the Departmental allowance With ragi Selling at 12 Seers per Re the dependents daily allowance wd be 4 pice under Appendix H of the famine Code & that rate wd give a monthly rate of Rs 1/14 or Rs 1/15. By granting Rs 2 p.m. it has apparently been assumed that the Servants to whom the allowance has been Sanctioned have real nothing in the form of emoluments from land & perquisites & this is not clear if such assumption is Correct. The case did not pass thro the Fmt Branch and the expenditure entailed by the Sanction is Rs 2340.

Sanction

the affected villages in one District
and applications for extension of
the Sanction to other Districts are
sure to be received soon. It is very
to restrict the relief
to Village Servants & the limit
laid down in Section 177. The no
of villages is large & the allowance
may have to be paid for some
months & the expenditure on
the whole on this account is accordingly
likely to be heavy.

As far as I can see
~~the expenditure~~ the relief has been
given too soon & the rate has been fixed
too high. The village servants are paid, by the ryots,
so many seers per acre cultivated, so a poor
crop does not apparently affect them much; only the
portion, to the grain heaps, is felt as heavy by the ryots. Moreover
when even in Tumkur & Kolar the relief has
not been asked for, it is questionable whether it was
really necessary for Chattadrug. The conditions
contemplated & in Sec 177 Famine Code has not
yet arrived. It contemplates the state when the
state of village works is passed & the population has

be maintained on big public works away from the villages - On that condition because the village servants cannot leave the village & go & in work they are given some relief. At present we have not even reached the stage of village works & the step therefore seems premature - Apart from the direct expenditure involved in meeting similar demands which will come from other districts as soon as the fact is known, such concessions, in advance of the time, are likely to have a certain amount of unwholesome indirect effect on the population.

Although famine has not been declared yet we are acting on the understanding that in the affected tracts whatever measure of relief is necessary should be carried out according to the provisions of the famine code. There is no doubt that the allowance of 2 Rs to be given in the Chitaldrug Taluk is too liberal & this has been pointed out in the Famine note. But having

expressly authorizes the Rev Commr. to give relief to Tehsildars and talatis it is not by the question to go back upon the order now and declare that such relief is not necessary. The order has not been communicated to the other Dy Commrs. If however it is feared that in the other districts similar liberal allowances may be made leading to much expenditure I may be may issue an explanatory order pointing out the exact amount of relief that may be given under the code

Secy I

Why not ask the Rev Comr by letter) to state whether the conditions contemplated by sec. 17 of the D.C. Tenures exist in the present case, and whether the rates of pay are not too high (as stated and upheld by the Appellate Authority)? Please put up a draft.
